**A SEASONABLE  
SUGGESTION**

Soda Water is always "In Season."  
Whether taken hot or cold it is a  
wholesome beverage, unless rendered  
deleterious to health by being loaded  
with impure artificial flavorings and  
glucose syrups.

Gold Soda drawn from  
Our Arctic Fountain  
Lacks nothing that could be  
Desired by the most

Sensitive Palates. We use  
Only pure juices made  
Direct from fresh fruits  
And can give any flavor.

Our "Cold Soda" is always cold.

night? With your arm full of mark-  
etings, your head full of tomorrow pray-  
er words, strike the thing, wheelbar-  
row, two ribs south of its left hind  
spoke-socket, start to fall, cut a few  
pinwheels, kiss the cinderpelt that lies  
to the starboard side of the arbor as  
you shoot from reach of the last expir-  
ing kick of the mad and dying wheel-  
barrow. With an awkward turn the  
basket of cold storage eggs, sour-  
knot, and other fresh tropical fruit  
spreads a beautiful rosette on the front  
of your only Sunday shirt.

Well, such a conglomerate condition  
would tangle a fellow, and say, I'm  
tangled in a little net of business—  
tangled up in a little lot of trusses,  
shoulder braces and crutches. If I on-

well—enough's enough.

Crutches for cripples from 90c.—  
Trusses the best and all sizes from 85c.  
Shoulder Braces, many styles, for lad-

**The Marietta Daily Leader**

FRIDAY, AUGUST 24, 1900.

**TO THE FRONT**

Is Marietta as a Manufacturing  
City.

On Thursday Mr. Jacob Metzger, of  
Zanesville, Inspector of Workshops and  
Factories for this, the Seventh Ohio  
District, completed his work of in-  
specting the factories and shops in  
Marietta, and the result is most grati-  
fying to the people of our enterprising,  
progressive and fast-growing city.

The report of the inspection that was  
made two years ago shows that at that  
time Marietta possessed forty-four  
establishments employing labor in the  
manufacturing line. The inspection  
just completed shows that the number  
of establishments has increased from  
forty-four to seventy, a clear gain of  
twenty-six, or fifty-nine per cent.

This is a most favorable showing, and  
is not surpassed by any town or city of  
of any size in the entire state.

Mr. Metzger informs the Leader that  
the buildings of Marietta are in good  
shape from the standpoint of ventila-  
tion, sanitation, etc., and that good  
precaution has been taken in almost  
every instance for the comfort and  
proper protection of the employees.

Mr. Metzger is a very efficient officer,  
and his services to the state are recog-  
nized as being very valuable. He left  
Thursday for his home at Zanesville,  
but will return to Marietta next week  
to inspect the several school buildings.

Mrs. E. D. Kidd.

The death of Mrs. E. D. Kidd oc-  
curred at the home of her daughter,  
Mrs. N. N. Thornley, Thursday morn-  
ing at one o'clock. For several months  
Mrs. Kidd's health has been very deli-  
cate and her death was not unexpected  
by those who were acquainted with her  
weakened physical condition. The  
immediate cause of her demise was  
heart failure.

Mrs. Kidd was born in Pennsylvania,  
and came to this country when she was  
three years old, since which time she  
has resided in Marietta and immediate  
vicinity. She was 69 years old and  
leaves three children: Mrs. N. N. Thorn-  
ley, Mrs. Hanna E. Cain and C. J.  
Kidd, Jr.

The burial service, conducted by Rev.  
J. R. Nichols, will occur at Sand Hill  
this afternoon at two o'clock, sun time.  
Interment will be made in the Valley  
Cemetery.

Service Stripe System Adopted.

The Ohio and Little Kanawha Rail-  
road has adopted the service stripe  
system in the transportation depart-  
ment and passenger conductors on that  
road now wear the regulation gold  
braid stripes in the left coat sleeves of  
their uniforms.

These stripes are about a third of  
an inch wide and extend half around  
the sleeve just above the wrist. Each  
denotes that the wearer has served five  
years continuously in the transporta-  
tion department. Conductors Reynolds  
and Lavelle wear two stripes each,  
both having been running continuously  
on the passenger trains of the road for  
ten years.

Not only do the stripes denote the  
length of service, but also are a mark  
of distinction well earned by years of  
faithful performance of duty.

Married.

Mr. Pearl Flannery, of Warrentown-  
ship and Miss Bessie Carpenter of  
Marietta, were united in marriage,  
Wednesday evening at the office of  
Squire N. E. Kidd. They left at once  
for Belpre.

Mr. Pearl Saftred and Miss Liddle  
Jones a young couple from Parkers-  
burg, drove to this city Thursday, se-  
cured a license, and were married by  
Squire McDermott. They returned to  
their home in Parkersburg in the eve-  
ning.

Night Blooming Cereus.

A number of spectators were at-  
tracted last evening by a splendid  
specimen of the night blooming cereus  
at the home of Mrs. Jacob Seyler, 527  
Second street. The plant was in full  
bloom and the beauty and fragrance of  
the blossoms were wonderful. Mrs.  
Seyler prizes the plant as one of her  
choices of the flowering kinds.

While in full bloom the plant was  
photographed by a gentleman who was  
present.

Real Estate Deal.

Mr. G. B. Sunderland reports the sale  
of the J. E. Pettit property on Eighth  
street, above Washington, to Mrs. An-  
nie VanBergen. Consideration \$2900.  
Mrs. VanBergen will occupy the prop-  
erty at once.

Quincy Lee Morrow.

Quincy Lee Morrow will speak at  
the Auditorium Wednesday night,  
August 29. Everybody invited to turn  
out and hear this silver tongued orator.

**CRAFTS**

Which Ply Their Course Along the  
Two Large Rivers.

A rise of several inches in the river  
was noticed at the local wharf yester-  
day and the conditions above are such  
as to warrant the rivermen in expect-  
ing the stage here not to fluctuate  
much for several days. Several of the  
large boats are out and will make the  
trips up and down the river, as the  
case may be, today and tomorrow.

A stage of 3 feet 10 inches is regis-  
tered here. At Davis Island Dam the  
marks showed 3.2 feet, while at Wheel-  
ing 2.7 feet was reported.

The boats which touched at the  
wharf yesterday were: Telegram, 3 a.  
m. for Wheeling; Bedford from Wheel-  
ing 9 a. m.; Big Sandy for St. Marys, 2  
p. m.; City for Wheeling for Wheeling,  
6 a. m.

The boats which are scheduled on  
the bulletin board at the wharf today  
are the Big Sandy for St. Marys 2 p.  
m.; Bedford for Wheeling 6 a. m.

The City of Wheeling passed up the  
river about 6 a. m. yesterday morning.  
Everything was in first-class shape  
and the machinery was working per-  
fectly. The boat will be furnished and  
completely equipped when she reaches  
her destination.

The Vega, a boat employed by the  
government to repair all river im-  
provements, is moored in the Musking-  
um and will make much needed re-  
pairs on the dam here. She is under  
the direction of Capt. McLaughlin and  
as the work to be done is quite exten-  
sive she will be here for some time.

**THE BRIDGE.**

Iron Work is Almost Completed—  
Work on the Abutments.

The superstructure of the Putnam  
street bridge is almost completed, and  
so far as can be seen by an ordinary  
observer, it will be only a comparative  
few days until the work is finished.  
The only work that remains to be done  
is the laying of the plank floor and the  
support for the street railway track  
and the foot bridge, and the final riv-  
eting together of the parts. The men  
are doing their work rapidly and well  
and when completed the bridge will  
be the finest and most expensive struc-  
ture along the Muskingum.

The approaches are now claiming at-  
tention and work on the walls is pro-  
gressing rapidly. The north wall of  
the east side abutment is almost fin-  
ished and the high bank on the south  
side is being graded down to make  
room for the wall on that side. The  
earth is being used in filling in be-  
tween walls up to the height necessary  
for laying the paving. When this is  
done, about all that remains are the  
odd jobs necessary to finish up. Most  
of this could be done however after the  
bridge is opened so that it will be only  
a short time until the bridge can be  
opened for traffic provided the City  
Council and the Bridge Company can  
agree upon the terms of settlement.

Genesee Pure Food Co., Le Roy, N. Y.  
Gentlemen—Our family realize so  
much from the use of GRAIN-O that I  
feel I must say a word to induce others  
to use it. If people are interested in  
their health and the welfare of their  
children they will use no other bever-  
age. I have used them all, but  
GRAIN-O I have found superior to  
any, for the reason that it is solid  
grain. Yours for health,  
C. F. MYERS.

When the condi-  
tions are right the  
light leap of a  
Chamois may start  
an avalanche which  
will bury a village  
alive. It takes but  
a little thing when  
the conditions are  
right to prostrate a  
healthy looking  
man. Hastily eaten  
meals, ill digested  
food, means a body ill nourished, a nerv-  
ous system on starvation rations and the  
blood sluggish and corrupt.

There is no protection against the ava-  
lanche. There is protection against dis-  
ease. When the nerves are unstrung,  
the mind is irritable, the stomach weak  
and distressed after eating, the brain dull  
and stupid, the conditions are ripe for  
serious illness. This may be averted and  
the system restored to sound health by  
the use of Dr. Pierce's Golden Medical  
Discovery. It cleanses the blood,  
strengthens the stomach and organs of  
digestion and nutrition, nourishes the  
nerves, and produces sound and vigorous  
health.

"Six years ago last August," writes Mr. Daniel  
A. Carter, of York, Rowan Co., N. C. "I was  
attacked with malarial fever; was in bed nine  
days, and then taken with chills. Had this six  
months. My spleen became enlarged, and I  
was in bed and on for four years. I went to  
the doctors and some of them said I had dys-  
pepsia, others said I had liver trouble. I paid  
out money and nothing did me any good. Last  
August two years ago, I commenced taking Dr.  
Pierce's medicines, and used ten bottles, and  
now I can do as big a day's work as any man. I  
am 31 years old. I now weigh 150 pounds."
